

Hello – and thanks for taking a look at my work!

My name is Rich Kurz and I am an experienced graphics design professional. My philosophy has grown simpler through the years. Good design is not about me, but about us. I want to do good work that serves the needs of my client and that I am proud to put in my portfolio. This pdf shows some of my capabilities.

**Note that all concepts and original drawings are owned by the client.
The images in this document are my own and are under copyright to Rich Kurz.**

The L5 Space Station bar/restaurant orbits between the earth and the moon at the point of neutral gravitational attraction between the two – point L5. It is there one can linger and be refreshed while voyaging between the two bodies. And while one is there, why not party a bit?!

In the late 1980s, the client asked me to visualize this restaurant concept to explore opening this unique restaurant concept in the Colorado Springs area. And so, these five renderings came into being. They take the patron from the entrance into the main floor and finally to his seat in a side alcove. In an atmosphere of starlight and stardust, the patron can while away his hours until the next shuttle departs for the Clavius moonbase.

Deliverables: title board and five views, 18" x 24" marker illustrations

I am available to discuss your design, illustration, marketing, and advertising needs. Let's talk!
